

SHE SUFFERED FIVE YEARS

Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Erie, Pa.—"I suffered for five years from female troubles and at last was almost helpless. I went to three doctors and they did me no good, so my sister advised me to try Lydia E. Pinkham's Vegetable Compound, and when I had taken only two bottles I could see a big change, so I took six bottles and I am now strong and well again. I don't know how to express my thanks for the good it has done to me and I hope all suffering women will give Lydia E. Pinkham's Vegetable Compound a trial. It was worth its weight in gold."—Mrs. M. E. Zandrich, R. F. D. No. 1, Erie, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and is the only medicine for the largest number of actual cases of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it is free and always helpful.

44 Bu. to the Acre

Is a heavy yield, but that's what John Kennedy of Edmonton, Alberta, Western Canada, got from 40 acres of his farm in 1917. He raised 1,760 bushels of wheat from 40 acres, or 44 bushels to the acre. Arms Made to Order.

A United States senator worth millions who has made rapidly, has a coat-of-arms recently acquired. He gave a large dinner party one night. His coat of arms was emblazoned in gold on the top of the dinner cards. The lady who went in with the senator, the wife of another senator, observed the insignia when she picked up her dinner card and exclaimed: "How pretty!"

"Yes," replied the senator proudly, "I think it is rather neat. My wife invented it."—Saturday Evening Post.

TAFT INDIGNANT AT MILLIONAIRES

Beverly, Mass.—Speaking in behalf of the Indian and negro industrial schools at Hampton, Va., of which he is a trustee, President Taft voiced his indignation at the necessity that such useful institutions must beg for money and at the failure of the nation's many millionaires to come to their rescue with contributions. In the graduation of Booker Washington, the president said, Hampton has done enough to entitle it to the gratitude of the country.

The meeting was held at the home of Mrs. T. Jefferson Coolidge, at Manchester, Mass. Governor Mann of Virginia, "the first Virginia governor whom we have caught in New England and brought up here for this purpose," as the president smilingly referred to him, and many of the trustees and some of the men interested in raising funds for Hampton were present.

"I always come in with a living protest—a point of indignation—that an institution as useful as that is, throughout the country," said the president, "forming, as it does, the basis for our industrial schools and suggesting a remedy and method of meeting the negro problem still should be on a basis necessitating the organization of such meetings as this and the begging by such men as you see before you for money enough to run it from year to year. We have lots of millionaires in this country and why cannot the contributions be sufficiently large to put such an institution as Hampton on a basis that shall be self-supporting."

"Hampton graduated Booker Washington, and as somebody has said, it had not done anything else, that alone would entitle it to the gratitude of the country. Booker Washington established Tuskegee, and from Tuskegee has sprung many schools of a similar character throughout the south."

"Northern generosity and donations with reference to southern education and the education of the negro have, of course, borne fruits and I don't want in any way to diminish the desire of those who wish to give. The negro is a citizen of the south, a very important part of the industrial makeup of the south and the negro therefore ought to come, and is coming, more and more under the guardianship of the south."

THE FIGHT OVER AFRICA

COLLECTOR CHARLES W. ANDERSON IN AN ADDRESS SHOWS HOW THE FOREIGN POWERS ARE SEEKING TO GET CONTROL WHILE THE NEGRO IS SCATTERED OVER THE WORLD AND OWNS BUT LITTLE OF THE COUNTRY.

New York.—In an interesting address in which he deeply deplored the failure of the negro to stand together, Collector Charles W. Anderson spoke to a large audience at the Church of the Seven Day Adventist, 184 West One Hundred and Thirty-fifth street, using as his subject: "The Conflict Between the Forces of the Cross and the Forces of the Greco-Latin Trippoli, and Its Lesson to Us." Counselor Wilford H. Smith presided.

Collector Anderson informed his hearers that at this time the different foreign nations are very much worried about the various strips of land in Africa, and that the only territory not in dispute is Liberia, and that even Germany and France are unable to agree on the Liberian boundary question.

"With Germany and France ready to war over Morocco, England doing all she can to retain her foothold in Egypt, France resorting to every subterfuge to remain in control of Algeria, and Italy and Turkey fighting over Tripoli, the negro of America can readily understand the great concern Europe is taking in Africa. And yet, while the various nations are trying to get every foot of this rich and fertile country with the exception of Liberia, the descendants of Africa are scattered here and there without owning a foot of the land in a country rich in causing the countries of the old world to quarrel and fight," declared Collector Anderson.

The negro was urged to get closer together in order to accomplish much good.

NEGRO CITY PLANNED

TRACT OF 1,358 ACRES ACQUIRED AT HORTENSE, TENN.

Nashville, Tenn.—A negro city has been planned for Hortense, Dickson county. A meeting was held there and option held on 1,358 acres taken up.

The United Helping society of Tennessee is back of the project, having already built a number of houses for colored people at Antioch. All available land there has been used. At Hortense an agricultural and industrial school has been projected and a widows and orphans' home.

Appetite Not a Necessity.

Dr. John R. Murlin of New York, assistant professor of physiology at the Cornell university medical college, in the October number of the Journal of the Outdoor Life, compares the food we eat to the fuel used in furnishing steam and power for an engine. In selecting our food he says that we should eat enough to furnish energy for the day's work, but that much more than this is not needed. He holds that the appetite is not a necessity for good digestion. "There is no fallacy of nutrition," he says. "greater than which supposes that a food cannot be digested and utilized without appetite." Most of the food we eat, fully four-fifths, goes to supply energy for our every-day tasks, while less than one-fifth goes to supply building material.

What Travelers Needed.

A traveler's outfit 300 years ago was somewhat different from the present day. In "Touring in 1600," by E. S. Bates, the following list is given: "First among requisites is a book of prayers and hymns effective for salvation without being so pugnacious, doctrinally, as to cause suspicion. Next, a notebook; a watch, or a pocket sundial; if a watch, not a striker, for that warns the wicked you have cash; a broad-rimmed hat, gaiters, boots, breeches (as if his friends would let him start without any), gloves, shoes, shirts, handkerchiefs, etc."

Immensity of Nature.

They were on a trip in Switzerland, and had that day braved all dangers and ascended one of the highest points in the Alps.

He was very fat, and as he stood panting and mopping his brow at the top of the mountain, he turned to his wife and said, with pathos in his voice:

"Small, indeed!" answered his better half. "Why, you're standing in front of me, hiding the whole of Mount Blanc and the best part of the valley of Chamoni!"—Exchange.

Easy to Understand.

When Senator John E. Hessin and daughter of Manhattan were doing Europe and Asia last summer, saw the Kansas City Journal, they took a motor boat ride on the Sea of Galilee. In the party was a New York minister. When the party had finished the ride the minister asked the boatman the amount of the bill. The boatman told him. It was exorbitant.

"I can readily understand why Christ walked on the water here," said the minister.

Plausible.

RED.

It's the Red Blood Corpuscles That Proper Food Makes.

An Ohio woman says Grape-Nuts food gave her good red blood and restored the roses of youth to a complexion that had been muddy and blotchy. She says:

"For 10 years I had stomach trouble which produced a breaking out on my face. The doctors gave it a long Latin name, but their medicines failed to cure it. Along with this I had frequent headaches, nervousness and usually pain in my stomach after meals."

"I got disgusted with the drugs, stopped the tea and coffee of short, and quit eating everything but fruit and Grape-Nuts, with Postum for my table beverage."

"The headaches, stomach trouble, and nervous weakness disappeared almost like magic, which showed that when the cause was removed and good food and drink used nature was ready to help."

"My blood was purified and my complexion became like a young girl's, while my weight was increased from 90 to 120 pounds in a few months—good, solid firm flesh, where it used to be soft and flabby."

"I recommended Grape-Nuts and Postum to one of my friends, who was afflicted as I had been. She followed my advice and in a short time was restored to complete health and in about 8 months her weight increased from 100 to 140 pounds."

"Our doctor, observing the effect of Grape-Nuts and Postum in our cases, declared, the other day, that he would hereafter prescribe these food products for gastritis." Name given by Postum Co., Battle Creek, Mich.

WOMAN CURED BOY OF ECZEMA

Eczema Caused Abscesses Now Entirely Cured by Resinol.

Who can tell the terrible suffering of this poor boy until his mother finally discovered Resinol? Taken from school because of his sad plight, he was in misery greater, probably, than words can describe. Read what his mother says:

"My boy had Eczema in such a form that it caused abscesses on his head. I was compelled to take him from school. After using your soap and ointment for three weeks he was entirely cured. I will always keep both in my home."

"MRS. FLORENCE GRIFFIN, '823 Winton street, Philadelphia, Pa."

If Resinol can do this in one case it can do it in all cases of skin disease. We have thousands of testimonials telling of wonderful cures. Resinol Ointment is prescribed by physicians for every skin irritation, including cuts, sores, scalds and burns, and is a remedy for boils, carbuncles, felonies, piles, eczema, barber's itch, tetter, shingles, psoriasis, eruptions of poison ivy and other skin troubles. Gives immediate relief, and should be on hand ready for immediate use. It is put up in screw-top opal containers selling at fifty cents and a dollar.

Resinol Soap, made of the same ingredients, represents the highest art in soap-making. It is refreshing and soothing and should be used by every one for the toilet and bath. It is especially adapted to the skin of infants. Prevents many of the skin troubles and there is nothing quite so good for shampooing and the cleaning of the scalp. The ointment and soap are for sale by all druggists. Sample sent free if you will mention Department No. 61, Resinol Chemical Co., Baltimore, Md.

INFLUENTIAL SOUTHERN PAPER ON RACE PROBLEM

WHITES SHOULD "TOTE" SQUARE, SAYS NEW ORLEANS ITEM.

The Item, New Orleans, recently had the following strong editorial regarding the rights of colored Americans. The item says:

"We state unqualifiedly that there is every reason why, in decency, justice, humanity and good public policy, the better white people of this section should accord even handed justice and proper consideration to the self respecting, law abiding element of our negro population."

"In the first place, the man who assumes a cruel attitude toward another human being betrays himself. In the next place the man who does another a wrong or injustice unnecessarily discourages and embitters that person."

"There is such a thing as noblesse oblige in this world—a carrying out of the idea that one who has the advantage of race, color, birth or breeding owes it to himself to treat others with kindness and consideration."

"The misconceptions of reconstruction times have passed away. The negroes know their place in society. The white people know that there is no possibility of any attempt being made on the part of the same element of the negro race to seek social equality or to strive for political power through the ballot."

"The negroes have been disfranchised. They have no say in the government of the country to which they pay taxes and whose laws they must obey. Fighting them is like shooting at tame birds. Making an issue of them in politics is demagogism pure and simple."

"The reason is that this is fair and right, and strong men, just men, chivalrous men, stand for these things in all cases and under all circumstances."

"The negroes are a valuable industrial element in the south. They create a large part of our wealth. They do a great deal of the work. It is idle and fatuous to argue the abstraction whether we would be better off eventually if they were not there. They are here—a condition, not a theory."

"They will be here while the rest of us live, an element for good or for evil. Fair treatment of them, humane treatment, will certainly not make them worse as a race or more difficult as a problem, nor will it hurt those who recognize the comparative helplessness of the negroes and insist that each of them shall be treated in accordance with the merits of his established character and personal behavior."

NEGRO LAWYERS ORGANIZE

FIFTY LAWYERS FROM ALL PARTS OF THE UNITED STATES FORM ORGANIZATION.

Little Rock, Ark.—The organization of a National Negro Bar association was one of the features of the National Negro Business league meeting. There were present 50 lawyers from all parts of the country, who took part in the organization. J. T. Settle of Memphis called the meeting to order. He said he was pleased to see so many lawyers present, men who were making their way by looking after the interest of their people.

The organization was perfected by electing the following officers: J. T. Settle, Memphis, president; J. Madison Vance, New Orleans, vice-president; P. W. Howard, Jackson, Miss., secretary; W. T. Andrews, Sumter, S. C., treasurer; J. Madison Vance, B. F. Booth, J. W. Brown, S. Laing Williams, W. T. Andrews, members of committee on constitution.

L. J. Winston of Greenville, Miss., who is perhaps one of the oldest negro lawyers in the south, as well as most successful, addressed the association. He said he thought it was a step forward for the negro lawyers to get together in a great organization to meet each year with the Business league. Winston is attorney for the Negro Masons in Mississippi and several other organizations.

P. W. Howard, who is attorney for the Order of Calanthe in Mississippi, the women's auxiliary of the negro Pythians, also spoke. Mr. Howard represents the successful young negro lawyer.

ALBINO ANIMALS IN JAPAN.

It is noteworthy that albino animals are regarded by the Japanese in a superstitious light. The appearance of one is considered a good omen for the reigning mikado and occasionally signifies a reign. For example, one reign is called "hakuchi nenkan," or period of the white pheasant; another the "haku hoo nenkan," or period of the white phoenix.—London Globe.

WHAT'S THE MATTER WITH YOUR BABY?

The young mother—and many an old mother, too—is often puzzled to know the cause of her child's ill nature. The loudness of its crying does not necessarily indicate the seriousness of the trouble. It may have nothing more than a headache or a feeling of general distress. It cannot, of course, describe its feelings, but as a preliminary measure you are safe in trying a mild laxative.

Nine times out of ten, you will find it is all the child needs, for its restlessness and peevishness are perhaps due to obstruction of the bowels, and once that has been remedied the headache, the sluggishness and the many other evidences of constipation and indigestion will quickly disappear.

Don't give the little one salts, cathartic pills or nasty watery, for these will act as purgatives, and they are too strong for a child. In the families of Mrs. M. A. Wisner, West Unity, Ohio, and Mrs. Herman Wilson, Stoutsville, Ohio, the only laxative given is Dr. Caldwell's Syrup Pepsin. It has been found to answer most perfectly all the purposes of a laxative, and its very mildness and freedom from gripping recommendation is especially for the use of children, women, and old folks generally—people who need a gentle bowel stimulant. Thousands of American families have been enthusiastic about it for more than a quarter of a century.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 301 Washington St., Monticello, Ill. Your name and address on a postal card will do.

Many a case of kidney disease has proven fatal because the symptoms were not recognized. If you suffer from backache or bladder irregularities, follow the advice of G. H. Tuttle, Rogers street, Broken Bow, Nebr. Says Mr. Tuttle: "I was confined to my home for weeks, unable to walk more than ten feet at a time. The doctor said I had gravel, and his treatment helped me temporarily, but soon the symptoms returned with greater severity than before. Being urged, I used Sloan's Liniment, and received almost instant relief. In a few weeks' time I was completely cured."
